

## Kumho ATF D-III

New generation high-performance Transmission and Gear oil

### Definition and Place of Use

KUMHO ATF D-III is designed for passenger and commercial vehicle automatic transmission applications that meet the performance level. It is an automatic transmission oil approved by major European and North American vehicle manufacturers. KUMHO ATF D-III lasts for many years with its zinc-free additive technology that has stable viscosity and significantly reduces friction. Provides excellent grip and friction performance throughout.

### Features and Benefits

- KUMHO ATF D-III is approved by European and North American vehicle manufacturers.
- KUMHO ATF D-III extends the life of system components vulnerable to rust and corrosion.
- KUMHO ATF D-III maintains consistency at low temperatures and provides ease of power transmission.
- KUMHO ATF D-III extends oil change intervals thanks to its high oxidation resistance
