

Kumho Diamı 10w-60

New generation high-performance automotive oil

Definition

KUMHO Diamı 10W-60 synthetic low-friction engine oil for sporty drivers and harsh operating conditions. It offers maximum lubrication reliability, optimum oil pressure and maximum wear protection thanks to its classic motorsport viscosity.

Places of Use

Maximum performance and high power reserve will take you to the finish line faster and safer.

Developed specifically for motorsport. It is suitable for sporty use all year round in gasoline and diesel engines. Tested for turbochargers and catalytic converters.

Features and Benefits

- Miscible with all commercially available engine oils
- Tested for use with catalytic converters
- Instant lubrication immediately after cold start
- Extremely low oil consumption
- Extremely low evaporation loss
