

Kumho Diami 5w-40

New generation high-performance automotive oil

Definition

KUMHO Diami 5W-40 gasoline passenger and diesel engines produced by adding high performance additives to high-tech synthetic base oils.

It is a synthetic engine oil for light commercial vehicles. Especially the latest developed by European engine manufacturers.

It is suitable for generation diesel engines.

Places of Use

High-performance engines including catalytic converter, turbocharged and non-turbocharged engines it is a synthetic engine oil that can be used safely in all seasons in diesel engines of passenger vehicles.

It is suitable for the most difficult operating conditions such as heavy urban traffic and highways.

Features and Benefits

- Provides high engine performance.
- Extends the life of exhaust emission systems.
- Protects the environment by contributing to low emissions.
- It keeps the engine clean by reducing the formation of sediment and debris.
- Helps save fuel

Specifications and Approvals:

API SN/CF, ACEA C3

Test	Unit	Test method	Ideal values
Density, 15°C	g/liter	ASTM D 4052	0,86
Viscosity, 100°C	mm²/s	ASTM D 445	12,5-16,3
Viscosity Index		ASTM D 2270	169
Pour Point	°C	ASTM D 97	-38
Flash Point COC	°C	ASTM D 92	240

Values shown may differ between productions.
