

Kumho Diami Hybrid Ow-20

New generation high-performance automotive oil

Definition

KUMHO Diami Hybrid OW-20 is a low-ash, fully synthetic engine oil designed in accordance with current exhaust emission regulations for state-of-the-art passenger and light commercial vehicle engines.

Places of Use

It is a fuel-efficient engine oil designed for next-generation hybrid vehicles, as well as light commercial and passenger vehicles with gasoline or diesel engines. It can quickly meet the instantaneous lubrication needs of start-stop technology. It can be used in vehicles equipped with particulate filters that require an ACEA C5 performance level engine oil.

Features and Benefits

- Its low viscosity reduces friction losses, providing fuel economy.
- It extends engine life by minimizing wear during cold start-up and during traffic startstops.
- Its stable structure protects the engine for a long time, extending the oil change interval.
- It keeps the engine clean by preventing deposit formation.

Specifications and Approvals:

API SN, ACEA C5, Fiat 9.55535-DSX / DM1, Volvo VCC RBSO-2AE

Test	Unit	Test method	Ideal values
Density, 15°C	g/liter	ASTM D 4052	0,855
Viscosity, 100°C	mm²/s	ASTM D 445	8,2
Viscosity Index		ASTM D 2270	176
Pour Point	°C	ASTM D 97	-44
Flash Point COC	°C	ASTM D 92	255

Values shown may differ between productions.
