

Kumho Miko 10w-40

New generation high-performance automotive oil

Definition

KUMHO Miko 10W-40 produced by adding high performance additives to high-tech synthetic base oils, specially designed for gasoline and diesel vehicles.
It is a synthetic engine oil formulated as.

Places of Use

Recommended for all modern high-performance passenger vehicles running on gasoline and diesel fuel systems.

Features and Benefits

- You can use the engine both in difficult urban traffic with a lot of stop-start use and in intercity use.
protects perfectly.
- It is recommended not to use any additives with this oil.
- Keeps the engine clean and provides maximum fuel economy.
- It extends engine life by providing superior protection against wear and corrosion.
- It slows down the aging of the oil by providing a longer oil change interval.
- Increases engine efficiency and provides high engine power.
- Provides faster start-up and protection

Specifications and Approvals:

API SL/CF

| Test | Unit | Test method | Ideal values |
|------------------|--------------------|-------------|--------------|
| Density, 15°C | g/liter | ASTM D 4052 | 0,87 |
| Viscosity, 100°C | mm ² /s | ASTM D 445 | 12,5-16,3 |
| Viscosity Index | | ASTM D 2270 | 137 |
| Pour Point | °C | ASTM D 97 | -33 |
| Flash Point COC | °C | ASTM D 92 | 241 |
