

## Kumho Miko 15w-40

New generation high-performance automotive oil

### Definition

KUMHO Miko 15W-40 it is an engine oil produced by adding high performance additives to premium quality mineral base oils.

### Places of Use

It is used in high speed old and new type engines. Particularly suitable for passenger cars and stop-and-go commercial passenger vehicles

### Features and Benefits

- It prevents the formation of deposits and deposits in hot and cold weather and keeps the engine clean.
- It facilitates the first start in cold weather and provides effective lubrication in hot weather.
- It does not decrease, its pressure does not decrease, and it does not foam even under the most severe working conditions.
- Extends the time between oil change periods.
- It reduces deposit formation and increases combustion efficiency by keeping the engine clean.
- Reduces product diversity in fleets thanks to its wide application area

### Specifications and Approvals:

API SL/CF/CG-4

Test	Unit	Test method	Ideal values
Density, 15°C	g/liter	ASTM D 4052	0,88
Viscosity, 100°C	mm <sup>2</sup> /s	ASTM D 445	12,5-16,5
Viscosity Index		ASTM D 2270	139
Pour Point	°C	ASTM D 97	-30
Flash Point COC	°C	ASTM D 92	230

Values shown may differ between productions.
