

Kumho Miko 5w-30

New generation high-performance automotive oil

Definition

KUMHO Miko 5W-30 is a synthetic engine oil produced with a perfect combination. Thanks to its superior technology, it can be used in all climates and roads. O Miko 5w-30, Additive packages developed with high technology and synthetic base oils, It provides unique engine performance under all conditions, especially in urban and continuous use.

Places of Use

Recommended for all modern high-performance passenger vehicles running on gasoline and diesel fuel systems.

Features and Benefits

- . Thanks to its high lubricity feature, it increases and protects the power of the engine by reducing internal friction.
- . Its unique resistance to oxidation ensures long oil change periods.
- . Provides superior protection on unique engine parts in harsh conditions where high temperatures are reached.
- . Thanks to its high-performance oil technology, it shows a much superior performance than ordinary oils.

Specifications and Approvals:

API SL/CF, ACEA A3/B4

Test	Unit	Test method	Ideal values
Density, 15°C	g/liter	ASTM D 4052	0,868
Viscosity, 100°C	mm ² /s	ASTM D 445	9,3-12,5
Viscosity Index		ASTM D 2270	142
Pour Point	°C	ASTM D 97	-30
Flash Point COC	°C	ASTM D 92	238

Values shown may differ between productions.
